

KeyKeeper Configuration

Document Information	
Namn	KeyKeeper Configuration
Version	1.0
Editor	Leif Johansson
Date	2016-12-06

Purpose and scope

This process documents configuration changes to a KeyKeeper device, for instance in order to generate keys. This protocol SHOULD be associated with a detailed log of configuration commands performed on the KeyKeeper

Governing policies

This procedure is governed by the following policies:

- SUNET Key Management Policy (SUNET KMP)
- SUNET Key Keeper Key Management Practice Statement (SUNET KeyKeeper KMPS)
