

SAML Metadata and Trust

SWAMID technical trust is based on publication and validating digitally signed SAML metadata documents.

- [Signing Certificate](#)
- [SWAMID Metadata Feeds](#)
- [Display of current metadata](#)

Signing Certificate

All streams are signed with the private key that corresponds with the certificate <http://mds.swamid.se/md/md-signer2.crt> with SHA256 Fingerprint=A6:78:5A:37:C9:C9:0C:25:AD:5F:1F:69:22:EF:76:7B:C9:78:67:67:3A:AF:4F:8B:EA:A1:A7:6D:A3:A8:E5:85

SWAMID Metadata Feeds

For information about which metadata-feed to use please read [Choosing the right SAML metadata URL](#).

Apart from the streams listed below additional metadata feeds are available at <https://mds.swamid.se/md/>. These feeds are either experimental or [interfederation upstream feeds](#) and should not be used directly by SWAMID members.

Name	Url	Usage
------	-----	-------

SWAMID 2.0 Main Feed	http://mds.swamid.se/md/swamid-2.0.xml	All SWAMID identity providers and relying parties.
SWAMID Registered Identity Providers	http://mds.swamid.se/md/swamid-idp.xml	Contains all SWAMID registered identity providers for use by relying parties. For use by SWAMID registered service providers.
SWAMID Transitive Identity Providers	http://mds.swamid.se/md/swamid-idp-transitive.xml	Contains all SWAMID registered and interederation imported identity providers for use by relying parties. For use by SWAMID registered service providers.
SWAMID Transitive Service Providers and Attribute Authorities	http://mds.swamid.se/md/swamid-sp-transitive.xml	Contains all SWAMID registered and interederation imported service providers and attrfor use by relying parties. For use by SWAMID registered identity providers.

Display of current metadata

The [SWAMID Metadata Tool](#) contains and display all metadata registered or imported into SWAMID from interfederations, i.e. eduGAIN and Fidus.
