

# Box Privacy Policy

## Description of Box service

The box service is used to store user data in the cloud. Log in is managed through SWAMID, making collaboration easy across different organizations.

## Processing of personal data

### Transfer of personal data

When logging in, personal information is transferred from the identity provider you have logged in with to Sunet's identity management service to give you as a user access to login-protected information in Box. At time of login, a number of personal data is requested to identify you as a user and give you access to service.

When logging in, the following personal data are requested from the identity provider you use:

Personal data	Purpose	Technical representation
Name	Identify yourself to other users in the services.	givenName sn
E-mail address	To verify that the invited person is similar to the logged in individual.	mail

In addition to direct personal data, indirect personal data are also transferred, such as which organization the user belongs to and which identity provider that has been used when logging in. This information is not used by the login service more than for technical logs.

### Other processing of personal data within the service

The identity management service saves technical logs for troubleshooting and security related incidents. These technical logs contain information about all logins made incl. transferred personal data.

Box also save technical logs for troubleshooting and security related incidents.

### Transfer of personal data to third parties

Personal data listed above are transferred to box.com.

### Lawful basis

Personal data is handled based on the lawful basis of exercise of official authority. The personal data must be transferred to give users access to login-protected information needed for their work at Sunet or in collaboration with Sunet.

### Right of access, right of rectification and right of erasure of personal data

Personal data saved in the identity management service is automatically corrected based on the personal data transferred from your identity issuer in connection with the login.

To delete your personal information in the identity management service, contact [SUNET NOC](#).

For access your personal data, contact the Personal data controller.

### Purging of personal data

Personal data is manually purged when it is no longer used by the identity management service or connected services.

## Personal data controller

Personal data controller for the processing of personal data is The Swedish Research Council, Sweden. If you have questions about how personal data are processed within the service, please contact [SUNET NOC](#).

Contact information for The Swedish Research Council's data protection officer can be found at <https://www.vr.se/behandling-av-personuppgifter.html>.

## GÉANT Data Protection Code of Conduct

This service complies with the international framework [GÉANT Data Protection Code of Conduct](http://www.geant.net/uri/dataprotection-code-of-conduct/v1) (<http://www.geant.net/uri/dataprotection-code-of-conduct/v1>) for the transfer of personal data from identity providers to the service. This framework is intended for services in Sweden, the EU and the EEA that are used in research and higher education.
