

Update Connect Privacy Policy

Description of Sunet eduSign service

The Update Connect service is used to update organisational information and tie an eduid of an individual to an organisation. You should only login to change or add organisational information or if you are invited to change your own personal information.

Processing of personal data

Transfer of personal data

When logging in, personal information is transferred from the identity provider you have logged in with to the Update Connect service to give you as a user access to login-protected information in the service. At time of login, a number of personal data is requested to identify you as a user and give you access to service.

The personal data we obtain from the identity providers is that which is strictly needed for:

- Enable administration of organisational information
- Identify users invited to change their own information

Additionally, some of this data is temporarily kept in logs for traceability and troubleshooting.

When logging in, the following personal data are requested from the identity provider you use:

Personal data	Purpose	Technical representation
Unique identifier	Identify you as a user of the service so that you have access according to the rights you have been granted.	eduPersonPrincipalName
E-mail address	To verify that the invited person is similar to the logged in individual.	mail
Affiliation	Specifies the person's affiliation within a particular security domain in broad categories	eduPersonScopedAffiliation

In addition to direct personal data, indirect personal data are also transferred, such as which organisation the user belongs to and which identity provider that has been used when logging in. This information is not used by the service more than for technical logs.

Other processing of personal data within the service

The service saves technical logs for troubleshooting and security related incidents. These technical logs contain information about all logins made incl. transferred personal data.

Transfer of personal data to third parties

No personal data is transferred to third parties.

Lawful basis

Personal data is handled based on the lawful basis of public interest. The personal data must be transferred to give users access to login-protected information needed for their work at Sunet or in collaboration with Sunet.

Right of access, right of rectification and right of erasure of personal data

Personal data saved in the service is automatically corrected based on the personal data transferred from your identity issuer in connection with the login.

To delete your personal information in the identity management service, contact [SUNET NOC](#).

For access your personal data, contact the Personal data controller.

Purging of personal data

Personal data is manually purged when it is no longer used by the identity management service or connected services.

Personal data controller

Personal data controller for the processing of personal data is The Swedish Research Council, Sweden. If you have questions about how personal data are processed within the service, please contact [SUNET NOC](#).

Contact information for The Swedish Research Council's data protection officer can be found at <https://www.vr.se/behandling-av-personuppgifter.html>.

GÉANT Data Protection Code of Conduct

This service complies with the international framework [GÉANT Data Protection Code of Conduct \(http://www.geant.net/uri/dataprotection-code-of-conduct/v1\)](http://www.geant.net/uri/dataprotection-code-of-conduct/v1) for the transfer of personal data from identity providers to the service. This framework is intended for services in Sweden, the EU and the EEA that are used in research and higher education.
