## **SWAMID Identity Assurance Profiles**

## Summary

The SWAMID federation is based on a technology independent policy, a set of assurance profiles and a set of technology profiles. These documents are available at www.swamid.se.

## Introduction

The SWAMID Policy defines an Identity Assurance Profile this way:

An Identity Assurance Profile describes levels of trust in claims and organisations. An Identity Assurance Profile allows a Relying Party to determine the degree of certainty of the identity of a Subject and its personal data. Identity assurance is to a large extent independent of the technology used to convey Claims of identity.

## Levels of Assurance

- SWAMID Identity Assurance Level 1 Profile
  SWAMID Identity Assurance Level 2 Profile
- SWAMID Identity Assurance Level 3 Profile

For more information on assurance profiles go to SWAMID Assurance How-To.
